versus

BLACKBURN AND COMPANY, ET AL.,

Appellees.

---

Appeal from the United States District Court  
For the Eastern District of Louisiana

(93 CV 776 "J")

---

( March 28, 1995 )

Before KING, JOLLY and DeMOSS, Circuit Judges.

PER CURIAM:\*

This appeal relates to a controversy between William B. Schutz

---

\* Local Rule 47.5 provides: "The publication of opinions that have no precedential value and merely decide particular cases on the basis of well-settled principles of law imposes needless expense on the public and burdens on the legal profession." Pursuant to that Rule, the Court has determined that this opinion should not be published.

("Schutz") and Blackburn and Company ("Blackburn") as to who is rightfully entitled to the brokerage commissions earned in the sale of Radio Station KATZ AM and KATZ FM in St. Louis, Missouri by the debtor in bankruptcy, Inter Urban Broadcasting of St. Louis, Inc. to Noble Broadcasting Company ("Noble"). After a hearing, the bankruptcy court for the Eastern District of Louisiana resolved the controversy in favor of Blackburn and filed its memorandum opinion under date of November 26, 1993, which included appropriate findings of fact and conclusions of law supporting its decision. Schutz appealed to the district court for the Eastern District of Louisiana, which affirmed the decisions of the bankruptcy court by Order and Reasons and Judgment entered under date of November 7, 1994.

We have carefully reviewed the briefs, the record excerpts and relevant portions of the record itself; and giving due deference to the findings of the bankruptcy court which have been affirmed by the district court, we conclude that the Judgment of the district court entered on November 7, 1994 affirming the Judgment of the bankruptcy court should in all things be AFFIRMED.
