## MEMORANDUM

Complainant, a pro se litigant, has filed a complaint alleging misconduct by the subject United States District Judge.

Complainant complains that in dismissing his lawsuit, the judge determined that even though he cited two federal statutes, he failed to state a claim upon which relief may be granted. Complainant protests that the judge “changed [the] context of Federal Statu[t]e and [the] State Statu[t]e Merits; of my Case” which, he submits, constitutes “Misconduct thru Technical Bias Actions.”

To the extent that the allegation relates directly to the merits of the judge’s decision, it is subject to dismissal under 28 U.S.C. § 352(b)(1)(A)(ii). In other respects, any assertion of “technical bias actions” appears entirely derivative of the merits-related charge, but to the extent the allegation is separate, it is wholly unsupported, and is therefore subject to dismissal under 28 U.S.C. § 352(b)(1)(A)(iii) as “lacking sufficient evidence to raise an inference that misconduct has occurred.”

Judicial misconduct proceedings are not a substitute for the normal appellate review process, nor may they be used to obtain reversal of a decision or a new trial.

This is complainant’s second merits-related complaint in three months regarding the judge’s dismissal of his lawsuit. Complainant is

WARNED that should he file a further merits-related, conclusory, frivolous, or repetitive complaint, his right to file complaints may be suspended and, unless he is able to show cause why he should not be barred from filing future complaints, the suspension will continue indefinitely. See Rule 10(a), Rules for Judicial-Conduct and Judicial-Disability Proceedings.

An order dismissing the complaint is entered simultaneously herewith.
